

HOW HEALTHY IS YOUR ORGANISATION'S CULTURE?

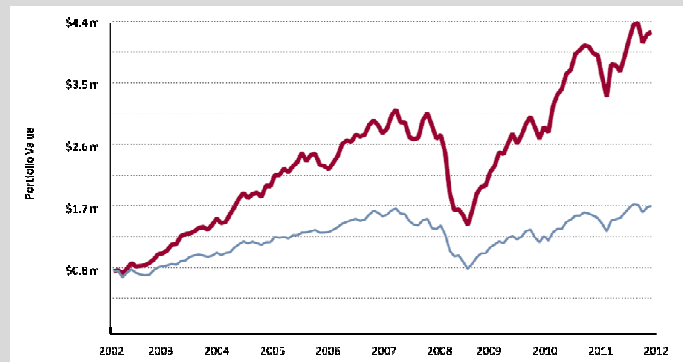

Barrett Values Centre

Powerful metrics that enable leaders to measure and manage cultures.

Did you know?

Companies with a healthy culture **outperform** average companies by **more than 12%**, higher employee engagement and lower cultural entropy™?

Healthy culture leads to better profits and happier employees.

What gets measured, gets improved.

Every process, policy and practice in your organisation is part of your culture. Measuring culture gives you a good overview of your organisation's health and pinpoints aspects within your organisation that needs improvement.

Barrett's Culture Transformation Tool (CTT) allows you to scientifically measure and manage your organisation's overall performance from a culture perspective.

Our Services

We recognise our clients have different needs. We have created 3 culture services to **ACT** in your growth direction.
